SECTION B (60 MARKS)

Attempt question **ELEVEN (11)** and any other **TWO (2)** questions in this section

11. The education policy implemented in rural schools, focusing on Nyanda

Community, a remote institution facing challenges such as poor infrastructure, teacher absenteeism, and low student enrollment, particularly among girls. In response, the government and a local NGO launched the Rural Education Development Initiative (REDI), using a bottom-up, participatory approach to develop localized policies. Through community consultations, the school introduced a teacher attendance monitoring system, a girls' education support program, and a policy encouraging local resource mobilization. Implementation involved training, pilot testing, and continuous feedback through monthly town halls. However, issues such as power outages affecting monitoring systems and community reluctance to contribute labor persisted. Overall, the importance of inclusive policy-making, adaptable strategies, and strong local-government collaboration for effective education reform in rural areas.
