TIME: 3 HOURS

INSTRUCTIONS TO CANDIDATE

1. This paper consists of **TWO** sections: **A** and **B**. Printed By And Vocational College
Date: 25.11.2025 03:00 PM
2. Answer **ALL** questions in section A.
3. Answer question **FOURTEEN** (14) and any other **TWO** (2) questions in section B.
Printed By: Technical And Vocational College
4. **Marks** **for** **question** **are** **indicated** **in** **the** **brackets**.
Date: 25.11.2025 03:00 PM
5. Candidates are provided with a separate answer **booklet**. Printed By: Technical And Vocational College
6. Do not write on the question paper. Date: 25.11.2025 03:00 PM

Printed By: Vocational College Date: 25.11.2025 03:00 PM

This paper consists of THREE (3) printed pages
Printed By: Technical And Vocational College

Date: 25.11.2025 03:00 PM
Candidate should check the question paper to ascertain that all pages are printed as indicated and that no questions are missing.

SECTION A (40 MARKS)

Answer ALL the questions in this section

1. Site preparation sets the outline THREE activities involved in a construction site before actual works begins. (3 Marks)
2. Construction materials are selected based on their intended use. State THREE categories of construction materials. (3 Marks)
3. A detailed bill of quantities is a basis of project planning. Identify FOUR key pieces of information that a BOQ provides for materials. (4 Marks)
4. Site security is a major concern on any construction. List THREE effects of poor site security. (3 Marks)
5. Selecting the right tool for a job is an important skill. State THREE factors that influences the selection of hand tools. (3 Marks)
6. Correct choice and use of construction equipment directly affect the duration of a project. Name THREE equipment used for transporting in a construction project. (3 Marks)
7. Proper organization of a construction site requires secure storage. State THREE factors to consider when setting up a storage facility. (3 Marks)
8. Effective material storage prevents waste and loss. Identify TWO ways for storing sand and aggregate on site. (2 Marks)
9. Accurate material ordering is crucial for project building. Outline THREE steps involved in the process of generating a materials requisition order from site to the procurement office. (3 Marks)
10. Modern construction relies on a mix of power and hand tools. List THREE power tools used in construction. (3 Marks)
11. An inventory register is maintained on a construction site. State THREE objectives of an inventory register. (3 Marks)
12. Construction projects depend on plant and machinery. Outline FOUR benefits of implementing a planned maintenance schedule. (4 Marks)
13. Different materials require different handling techniques. Name THREE types of material handling equipment and their use. (3 Marks)

SECTION B (60 MARKS)

Answer question 14 and any other TWO questions in this section

14. You have been appointed to a bulk excavation project.

a. Develop a sample entry for a building equipment schedule. (10 Marks)

b. Explain FIVE advantages of preparing a building materials and equipment schedule. (10 Marks)

15. Verifying, and storing materials on site is a critical control point

to ensure project quality and prevent cost overruns.

a. Describe procedure for receiving reinforcement. (12 Marks)

b. Explain the importance of the following procurement document. (8 Marks)

i. Requisition form

ii. Purchase order.

iii. Delivery note

iv. Invoice

16. Modern construction material management in a construction site helps to minimize

a. Explain any FIVE ways used to minimize materials wastage. (10 Marks)

b. Explain FIVE reasons why issued materials and equipment must be recorded on site. (10 Marks)

17. You have been appointed as a site supervisor for a building project and managing

materials and equipment at the site is one of your main roles.

a. Explain considerations while issuing required materials and equipment on a

construction site. (10 Marks)

b. State FIVE consequences of failing to address discrepancies in received construction materials. (10 Marks)
